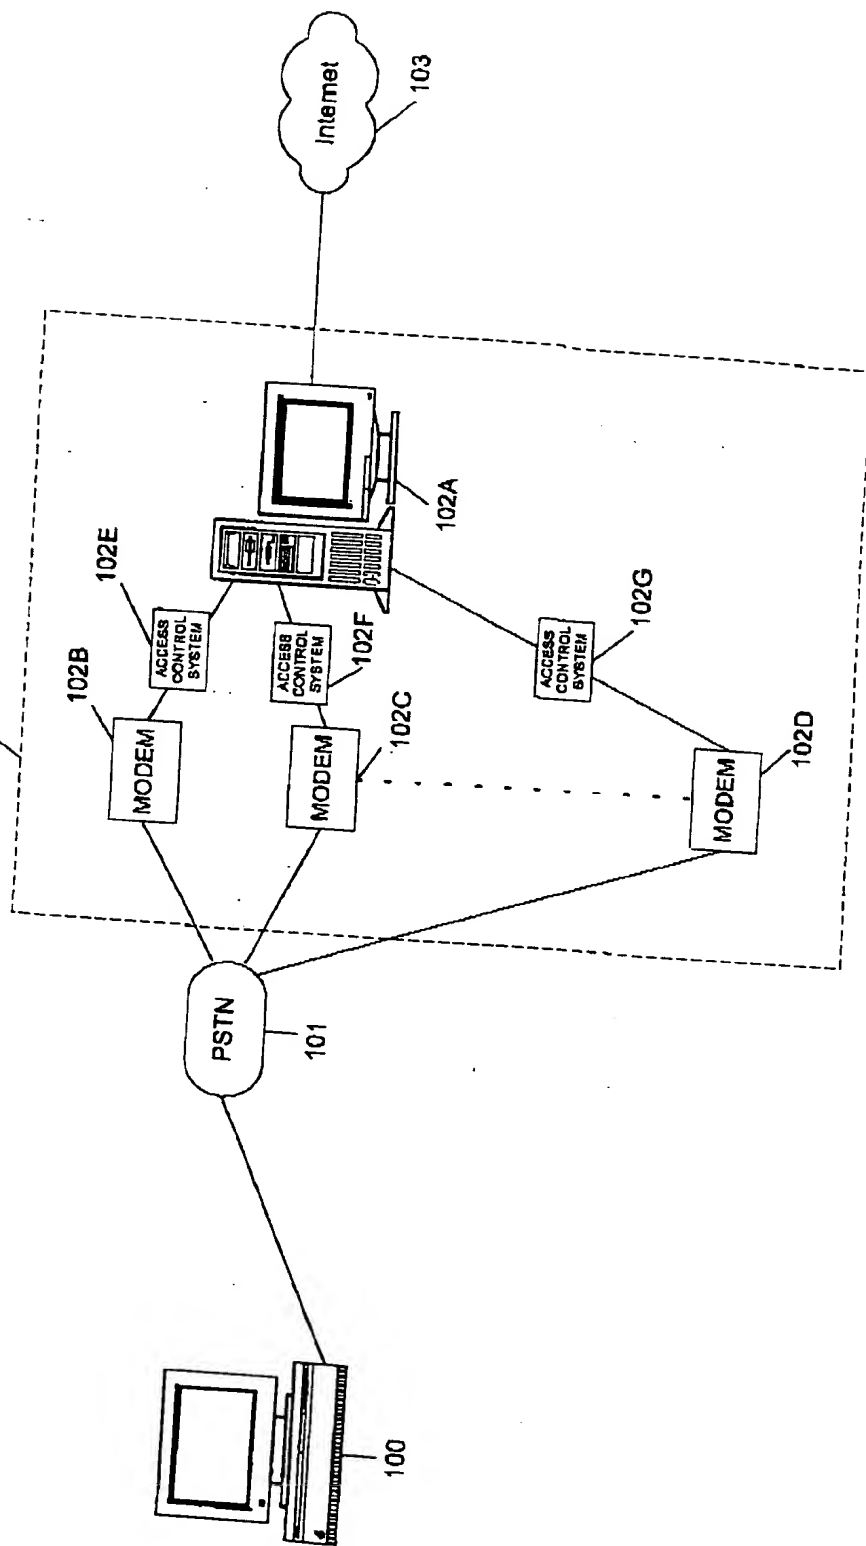

FIG. 1

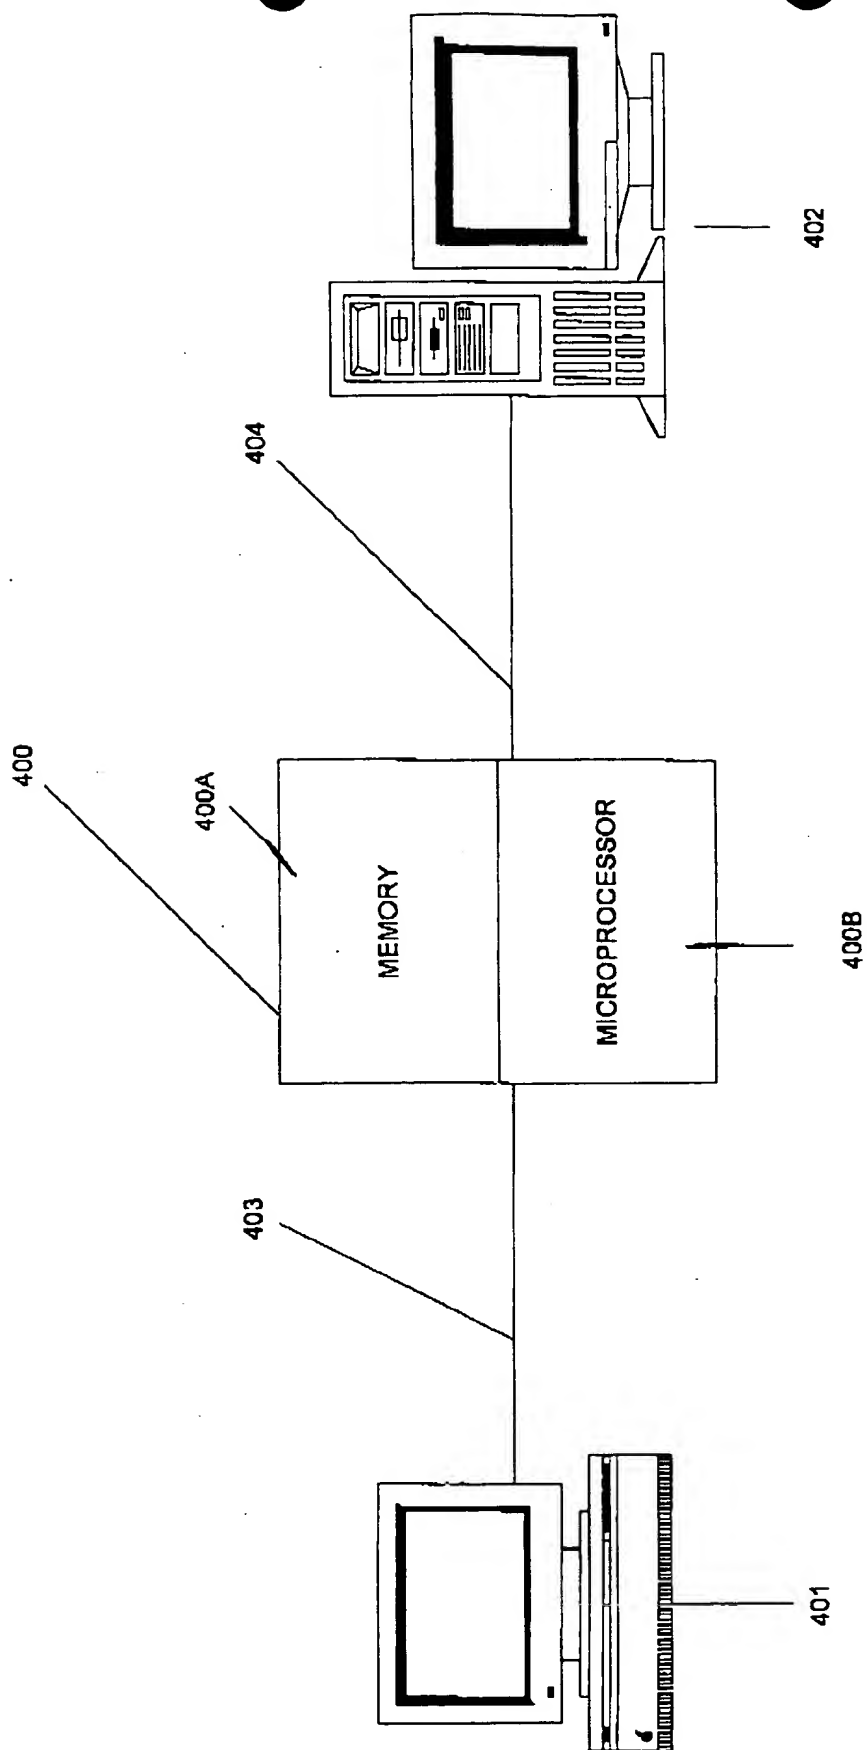

202

The diagram illustrates a network architecture. On the left, three client systems are shown, labeled 300, 301, and 302. Each client system consists of a monitor and a base unit. To the right of each client system is a box labeled 'ACCESS CONTROL SYSTEM' (303, 304, and 305 respectively). A vertical line connects these access control systems to a central server system (306) on the right. The server system (306) is connected to a cloud labeled 'Internet' (307). The server system (306) also has a monitor and a base unit.
